Pad Loves is a new feature for 2010

Whilst we love showcasing the work of the fantastic designers and artists based in the Northwest the team also wanted an opportunity to show some really special work by their favourite creative practitioners from further afield or whose work wouldn't normally feature in a gallery like ours!

Charlotte Tollyfield

Charlotte is an exciting contemporary silversmith based in Sheffield. Her work has won numerous awards from the likes of British Silver week and the Goldsmiths company. Her current work is designed for the interactive environment of the dining table where the silver is not just on display but also something to be actively used.
